Alan: Correct!

Specifically in our grant guidelines:

See page 47, and then for Nationally Consistent Programmatic § 319 Grant Conditions (appendix F) Page 75

<https://www.epa.gov/sites/production/files/2015-09/documents/319-guidelines-fy14.pdf>

If you are looking for the connection in the CWA, look at 319(h)(11). It lists reporting and other requirements while it doesn't explicitly say STORET it is for , among other things, the determination of improving water quality.

Hope this helps,

Cyd

Subject: 319 monitoring projects

Cyd,

My understanding is that the data from 319 funded monitoring projects must be entered into Storet. Is that correct? If so, can you tell me the citation in Section 319 or the policy where this requirement can be found?

Hope things are going well.

Alan
